

Fuelwood (Warwick) Ltd are pleased to announce their partnership with the leading Italian Firewood machinery manufactures Pinosa Srl. The two way partnership allows Pinosa to sell the Fuelwood's market Leading Kindlet, Kindlet Pro high volume Kindling wood machines and renowned Transaw products into Italy, Austria and Germany, Fuelwood have also been appointed sole UK & Eire agents for the Pinosa range of Firewood Machining centres. "It is refreshing to find a company with the same passion for Firewood machines and quality engineering as Fuelwood" said Jeremy Slatem Fuelwoods MD. "I never imagined anybody would ever have the same enthusiasm and energy as my father Richard Slatem founder of Fuelwood for firewood machinery, Mr Pinosa is so similar he has 30 years experience designing the Patented Firewood Machining Centres.

Pinosa approached Fuelwood last year after being impressed with the Transaw 350, the uncompromised design and features of the Transaw match those of the larger capacity Pinosa machines, and allows Pinosa to offer its customers a lower priced alternative.

Fuelwood will be demonstrating the Pinosa Machines at this years APF exhibition. For more information please contact Fuelwood (Warwick) Limited 01926 484673

The renowned British made Transaw 350 sold in Italy, Austria and Germany by Pinosa Srl.
